Ch. 11

### Short Answer

11. Serial monogamy occurs when individuals are married to one person at a time but repeatedly divorce their partner and marry another person.
12. Answers will vary, but the student should provide reasons for any response given.
13. Answers will vary. In societies where there are more women than men (for example, after large numbers of men have been killed in a war), it can increase the chances of a woman's getting married, which, in traditional societies, provided social and economic stability for the woman. In addition, the tasks of housework and child care can be shared. Problems that might occur include jealousy among wives, unequal treatment of offspring, problems with inheritance, etc.
