Below are a set of scenarios and ideas that a psychologist from a particular perspective might use. Choose the best perspective of the following: Psychodynamic, Behavioral/Learning, Cognitive, Humanistic, Biological, Socio-cultural/social psychological.

Scenario	Perspective
	-
1. When looking at why a person chooses to behave a particular way, I will	Cog
examine how they think and process information.	<u> </u>
2. When looking at why a person chooses to behave a particular way, I will	Psychodynamic
examine what happened in childhood and what kinds of issues the patient is	
fixated on.	
3. When looking at why a person chooses to behave a particular way, I will	Bio
examine the brain chemistry and hormonal issues of the person.	
4. When looking at why a person chooses to behave a particular way, I will	Hum
	Tuni
examine if the behavior helps the person reach his/her own potential.	D 1 1
5. When looking at why a person chooses to behave a particular way, I will	Behavioral
examine what consequences (pleasant or unpleasant) the person experienced.	
6. Examining how a person's gender will affect their actions.	Sociocult
7. The unconscious mind influences everything we do.	Psychodyn
8. How do people remember and forget?	Cog
9. Depression is influenced by genetic predisposition and brain chemistry.	Bio
10. Depression is influenced by how we perceive the world and how our thoughts	Cog
can betray us.	Cog
	D11
11. Depression is the result of not being able to express our anger toward those at	Psychodyn
whom we are angry, so we "swallow" it, leading to depression.	
12. Depression is the result of the depressive behavior being reinforced by	Behav
important others in our lives.	
13. Depression is caused when an individual has a specific self-concept, but	Hum
important others in our lives have different views of who we are and what we	
should be.	
14. When we watch important people in our lives being depressed, we imitate it.	Behvioral (social
The whole we water important people in our investments defined appreciate, we initiate it.	learning)
15. Recent research has found that being a part of any ethnic group changes the	Sociocultural
way our brains are wired. This has two answers.	Bio
16. Examining the structures of the brains of schizophrenic twins and comparing	Bio
them to their healthy twins.	
17. What makes people watch a commercial repeatedly, then go out and buy a	Cognitive
product? There are multiple responses here.	Sociocultural
18. We are constantly trying to become who we are. Our lives are a process of	Hum
growth.	
19. There seem to be a few things that motivate people: hunger, thirst, and sex.	Bio
Examining the hormones of each uses this perspective.	
	Daysah a days
20. Analyzing dreams is a part of this point of view.	Psychodyn
21. An individual's behavior is connected to a person's feelings and self-image.	Hum
22. Examining how an eyewitness will interpret a situation and how a lawyer can	Cognitive
best cross-examine that witness.	
23. Using drugs to treat various mental illnesses such as schizophrenia, anxiety,	Bio
and depression.	
24. When parents use punishment to change their child's behavior, they are using	Behavioral
a technique from this perspective.	
a cominguo mom ano peropeente.	l .

25. When learning song lyrics, you are using techniques from this perspective.	Cognitive
26. How the body and brain creates emotions, memories, and sensory experiences.	Bio
27. Examining the whole person, not just their biology or culture—we need to	Hum
examine the entirety of a person and his/her perceptions of their world.	Eclectic viewpoint
28. Looking at thinking and the "unconscious mind" is folly. Psychology should	Behaviorism
examine only observable behavior.	
29. The biggest influence on personality is what happens to us from birth to five	Psychodyn
years.	
30. The biggest influence on personality is a person's genetics.	Bio
31. The biggest influence on personality is a person's culture.	Sociocultural
32. Individual free will is more important for a person becoming who they are as	Hum
any other factor.	
33. Our mind uses defense mechanisms to reduce anxiety when we face uncomfortable realities.	Psychodyn
34. Teachers will attempt to make the classroom a "safe place" so you can	Hum
maximize your comfort level and learn more effectively.	
35. Schools provide meals for students so they can avoid hunger and be able to	Bio
learn more effectively.	Potentially hum if you
	teach maslow
36. Teachers will often get some students to study more by offering extra credit	Beh
37. If you show the same picture of a house on a hill to a Maori and to someone	Sociolcultural
from Iowa, the Maori is more likely to be interested in the hillside, while the	Cognitive
Iowan is more likely to be interested in the house.	
38. The reason students will act inappropriately in school is because of how they	Sociocultural
were raised in their home environment—they never learned how to behave	
properly but were reinforced to act without manners.	
39. A student tells a teacher to "f-off" while walking out of class. The reason for	Bio
that was because the student under the influence of an illicit substance.	
40. A student plays the role of "class clown" in one class and the role of "brain"	Cognitive
in another class. This approach explains it by examining a student's	Possibly humanistic
interpretations of how well the student assesses his/her own abilities in each	
subject.
